The Ohio Weatherization Training Center/Ohio Center for Lead Abatement

is a U.S. Environmental
Protection Agency (EPA) certified
training provider and an
Ohio Department of Health
(ODH) recognized training
provider.

www.coadinc.org/owtc

The Ohio Weatherization Training Center/
Ohio Center for Lead Abatement
at COAD would like to thank the Ohio
Development Services Agency, Office
Community Development for its generous
support of the CHIP Lead Hazard Control
Reduction Training Program.

Ohio

**Development
Services Agency**

2019 Training & Certification Requirements

Ohio Development Services Agency, Office of Community Development requires training and lead-safe certification for CHIP providers and contractors. Training provided by the Ohio Weatherization Training Center/Ohio Center for Lead Abatement at COAD meets **U.S. Environmental Protection Agency (EPA)** and **Ohio Department of Health (ODH)** regulations for Lead-Safe work, including EPA's Lead Renovation, Repair and Painting Rule (RRP Rule).

The RRP Rule requires that firms performing renovation, repair, and painting projects that disturb lead-based paint in homes, child care facilities and pre-schools built before 1978 have their firm certified by EPA (or an EPA authorized state), use certified renovators who are trained by EPA-approved training providers and follow lead-safe work practices. RRP certification is required to be renewed every 5 years.

**Due to class enrollment walk-ins can only be
accepted as seating is available.**

Registration Information

Individuals /Contractors interested in attending the **2019 Lead Hazard Reduction Training Program** courses must contact their local CHIP administrator to register. CHIP administrators are responsible for registering contractors and staff. Registration forms are available at: http://development.ohio.gov/cs/cs_traintech.htm.

Individuals not pre-registered will be accommodated if the class has not reached maximum enrollment. Student to instructor ratios are enforced for each course by EPA and the Ohio Department of Health to ensure optimal learning. As class size is limited, CHIP administrators are encouraged to register interested participants as early as possible.

Participants will receive confirmation via email, mail, or fax upon enrollment. If you have not received enrollment confirmation, please contact Devon Cooper at (740) 594-8499, ext. 219 or via email at: dcooper@coadinc.org.

Cancellation / Refund Policy

Cancellations must be received seven working days before the start of the course. Fees paid will be refunded 100% for such cancellations. Cancellations received less than seven days prior to the start of course will not be subject to refund. In the event of cancellation of classes by the OWTC, students will be notified and given the opportunity to enroll in the next available offering of the class or a full refund will be given.

Course Descriptions

Renovation, Repair & Painting – Initial RRP - I

This one-day (8 contact hours) training is designed for contractors and workers who are performing renovation and remodeling activities in HUD-assisted housing units, including general rehabilitation workers, such as drywallers, painters and carpenters. Contractors and workers attending the training will be listed by the US Environmental Protection Agency (EPA) and Ohio Department of Health (ODH) to perform lead-hazard control activities, except abatement, in HUD-assisted housing. The training is also required for those who cannot provide verification of attending the appropriate lead-safe training previously. The training topics include lead-based paint and lead poisoning history, health effects of lead poisoning, lead-based paint laws and regulations, identifying and controlling lead-based paint, lead-safe renovation and remodeling, resident protection and worksite preparation, working lead safe, cleaning up in a lead-safe manner and lead-safe waste management. Participants completing this training will receive the U.S. EPA Lead RRP Certification and Lead Essential Maintenance Practice certificate required by the ODH. *Re-certification is required every five (5) years under EPA rule for RRP.*

Pre-requisites: None

Renovation, Repair, & Painting – Refresher RRP - R

This ½ day (4 contact hours) course is for individuals who have already completed **EPA Renovation, Repair, and Painting – Initial Training**, and are renewing certification. Re-certification is required every five (5) years under EPA rule. Proof of previous RRP certification is required to enroll in this course (must provide documentation or certificate number). This 4-hour course satisfies the requirements of the EPA for contractors that routinely disturb lead-based paint, or work on pre-1978 housing, in the course of their work. This four hour training is required for those holding a current Ohio Lead Abatement Contractor's License.

Pre-requisites: RRP Certification

Lead Abatement for Contractors – Initial (*Residential*) LAC - I

This five-day training, designed for residential housing rehabilitation contractors, general contractors, project designers and policy makers, presents the EPA model abatement supervisor curriculum and augments it with a number of additional topics. The focus is on identification of proper work practices and job specifications for a variety of abatement techniques for paint, dust, and soil. The training will also help participants choose the most cost effective abatement methods. The training topics include health effects of lead poisoning, lead background and history, routes of exposure and sources of lead, lead in housing, legal and insurance issues, lead testing and inspection, worker protection, planning for abatement and abatement protection. Training is based on the July 2012 HUD Guidelines, OAC 3701-32 and applicable sections of the RRS. The refresher training must be completed every two years in order to maintain licensure in the State of Ohio.

Pre-requisites: None

Lead Abatement for Contractors – Refresher (*Residential*) LAC - R

This one-day training is designed for the professional who currently has an Ohio Lead Abatement Contractor License and is seeking to renew licensure. The refresher training must be completed every two years in order to maintain licensure in the State of Ohio. Therefore, it is necessary that individuals enrolling for this class be currently licensed as a Lead Abatement Contractor. This provides an update regarding personal protective equipment, safety practices and Ohio's lead abatement laws and regulations. In addition, applicable sections of the 2012 HUD Guidelines, including modifications, will be discussed, as well as record-keeping, liability and insurance concerns, and new approved lead abatement technologies. Students successfully completing the course will be eligible to sit for the State of Ohio licensing exam.

Pre-requisites: Lead Abatement for Contractors

Course Descriptions *(Continued)*

Lead Inspector/Risk Assessor LI/RA

This five-day training will equip housing and building inspectors and risk assessors with the specialized skills necessary to conduct accurate and defensible building/housing inspections for lead-based paint, and familiarize participants with the likely locations of lead hazards, the interpretation of results of paint, dust, soil and water testing, and the development of abatement reduction responses.

The training topics include health effects of lead poisoning, concepts of risk assessment versus lead paint inspections, lead background and history, environmental sources of lead, types of risk assessment, treating of lead problems, prioritizing hazards and selection of testing locations, current regulations and guidelines, assessing paint failure, standards for lead hazards control, intervention, paint, soil and water sampling, occupant issues, sealing work areas, radiation safety, specification writing, and interpreting testing reports. A refresher course is required every 2 years to maintain Lead Inspector/Risk Assessor licensure.

Pre-requisites: None

Lead Risk Assessor – Refresher LRA - R

This one-day training is designed for certified lead risk assessors interested in updating their knowledge and skills and fulfilling Ohio's requirements for continuing certification. The training topics include health effects of lead poisoning, new/updated laws, types of risk assessment and new lead abatement technologies and procedures. This training is required for licensed lead inspector/risk assessor every 2 years.

Pre-requisites: Lead Inspector/Risk Assessor

Meals/Hotel Arrangements

Each registrant is responsible for lodging and meal expenses. When training is held at the OWTC/OCLA Athens Campus, participants can take advantage of our discounted rate at the Holiday Inn Express (740-592-4640) or Baymont Inn (740-594-3000) located on East State Street, Athens, OH 45701. Please contact either hotel for lodging reservations. Please make sure that you inform them that you are at training at COAD, so they can provide the correct billing rate.

General Information

In general, the trainings are conducted from 8:30 am – 5:00 pm EST with a 1-hour lunch break. Half-day sessions are conducted as follows: morning session 8:30 am – 12:30 pm and afternoon session 1:00 pm – 5:00 pm. Attire for the training is casual. If you have questions or need additional information, please contact **Devon Cooper, Training Center and Energy Services Specialist** by email at: dcooper@coadinc.org or phone at: (740) 594-8499, ext. 219. For additional available training, please visit our website: www.coadinc.org/owtc.

On-Demand Trainings

CHIP Providers or contractors in need of training or certification for RRP/Lead-Safe Work Practices Initial; Recertification/Refresher; or Lead Abatement for Contractors outside of this schedule can request training to be conducted in their community or host training at their facility to meet demand. On-demand trainings will be offered on a first-come, first served basis for providers that guarantee a **minimum of ten(10) participants**. On-demand training is limited. To request training, please contact **Devon Cooper, Training Center and Energy Services Specialist** by email at: dcooper@coadinc.org or phone at: (740)594-8499, ext. 219.
